WORK EXPERIENCE

Software Engineer (Full time) FactSet Research Systems Inc.

06/2018 - Present

Divyasree NSL Orion, Hyderabad

ABOUT COMPANY: Portware, a FactSet product, is a trade execution management system with advanced decision intelligence, analytics, and trade automation.

Description

- Contributed actively to internal product development with feature specification, design, coding, tests, and DevOps.
- Implemented a web solution by indexing the SVN codebase, improving the search time to milliseconds from minutes - Within the first 3 months of joining.
- Pioneered the use of virtualization, images, and transformed the internal product debug and testing methods.
- Leveraged architectural expertise in CI automation and built infrastructure that increased the team efficiency by 40% within the first two months after the rollout.
- Automated the tedious steps of product deployment to a single click and that brought down the manual efforts to near-zero.
- Designed and implemented the log access project that involved coordination from multiple teams, and delivered the solution months before the agreed timelines, to stakeholders and clients.
- Served as the primary point of contact for several internal components, investigating issues and solving concerns promptly.
- With sound expertise in languages and internal workflows, helped team members on various architectural decisions and conducted code reviews.

Project Intern

FactSet Research Systems Inc.

01/2018 - 03/2018

MindSpace, Hyderabad

Description

- Researched several open-source search engines for indexing application data.
- Implemented a solution using Elastic Search engine to index millions of records making the copious and glacier data searchable.
- Advanced querying capabilities like ranking, paging, wildcards, and compound searches were opened up on the data.

EDUCATION

Bachelor of Technology - CSE

Jawaharlal Nehru Technological University

2013 - 2018

SKILLS

Java

Springboot

Frontend (Vanilla)

Python

CI

AWS

Docker

Firebase

PROJECTS

Collaborative notes (Webapp)
